

VINOUS OBSCURA

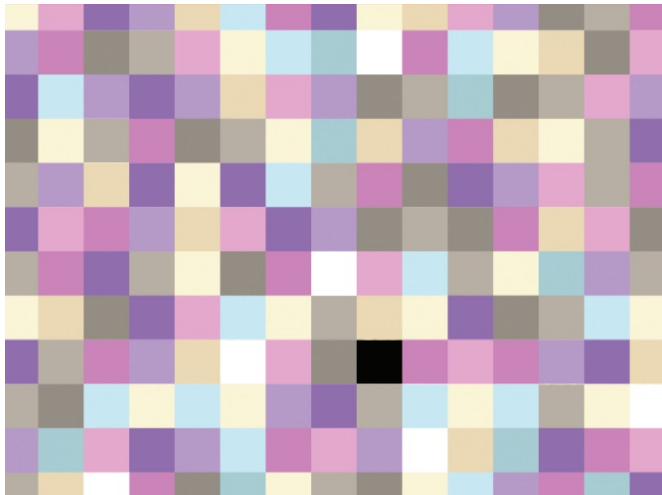

'ROCK CYCLE'

100% SYRAH

Redacted Vineyard, Columbia Gorge AVA
Columbia Valley, Oregon, U.S.A

QUICK SUMMARY:

One of the main reasons that Oregon is a great place to grow grapes and make wine is the incredible geological wealth that is the "Rock Cycle". This geological slow dance of magma, igneous rock, metamorphic rock, and sedimentary rock is something that great Syrah longs for. We have sourced our Syrah grapes from a single vineyard on the Oregon side of the Columbia Gorge that contains all these geological elements in their soils. This marriage would not be complete without the eerily similar weather patterns as that of the Rhone Valley in France. Dark, volcanic, spicy, fruity, and deep, our "Rock Cycle" Syrah is a sensory tour of all the elements that make Syrah such an incredible taste journey. Bottled unfined (vegan) and unfiltered.
